Grade: Grade 2 · Mathematics

Data & Graph Interpretation

Focus: Data · Graphs · Interpretation

1. Ask 5 friends their favourite animal.

2. Draw a bar graph with your results.

3. Which animal got the most votes?

4. Which got the least?

5. How many total votes?

6. Add one more vote for "dog." What changes?

7. Write 2 questions you can answer from your graph.

8. Compare the difference between cat and fish votes.

9. Colour your graph neatly.

10. Explain what your data shows.

Tutoring Tip:

Create classroom data boards to make interpretation interactive.
