

## Grade: Grade 2 · Mathematics

### Shapes, Space & Measurement

Focus: 2D/3D Shapes · Spatial Sense · Measurement

1. Draw one cube and one cone.
2. Count the sides on a rectangle.
3. Which shape can roll?
4. Which is taller — bottle or cup?
5. Measure your pencil using paperclips.
6. Sort shapes by how many corners.
7. Find 3 things shaped like cylinders.
8. Compare 2 sticks — which is longer?
9. Draw a cube with a ruler.
10. Build a shape tower with blocks.

#### Tutoring Tip:

Use tangible classroom materials for measurement and shape recognition.
