

## Grade: Grade 3 · Mathematics

### Data & Probability Fun

Focus: Data · Probability · Graphs

1. Toss a coin 10 times. Record heads and tails.
2. Which came up more often?
3. Draw a bar graph of your results.
4. Roll a die 12 times. Record 1–6 frequency.
5. Which number came up most?
6. Predict what happens if you roll 6 again.
7. Make a tally chart for colours of cars seen today.
8. Which colour is most common?
9. Write one sentence about your graph.
10. Discuss why results can change.

#### Tutoring Tip:

Use class participation to gather real data for probability tasks.
