

## Grade: Grade 4 · Science

### Science Detectives – Habitats

Focus: Classification · Research · Observation

1. What animals live in the Arctic?
2. Match: desert – camel, forest – deer, ocean – dolphin.
3. What do plants need to survive?
4. Name 3 types of habitats.
5. Draw one food chain from your habitat.
6. Which animals are herbivores?
7. Describe how humans affect habitats.
8. What happens when a tree is cut down?
9. Write one way to protect habitats.
10. Choose one animal and describe its home.

#### Tutoring Tip:

Use real-life nature images to link learning to Canadian ecosystems.
